

PRAIRIE HILL Learning Center

Position available: Assistant to Infancy Guide.

Guide approximately 10 children, ages 18 months–3 years, in a well-equipped and established classroom, with experienced assistants. We have an amazing outdoor learning environment complete with animal care (ducks, silver pheasant, chickens, horses, and cats), food preparation, and a strong connection to our Earth.

PRAIRIE HILL Learning Center has welcomed children ages 18 months–14 years to a warm, Montessori community in Roca, NE since 1981. We are a private, non-profit, established school with staff and families who support and learn from each other, which is why we chose the name “Learning Center.” We all come to PRAIRIE HILL Learning Center to learn together!

The PRAIRIE HILL campus consists of 12 acres of prairie along with wooded and park-like areas. Our elementary community is housed in a unique, straw-bale construction building, powered by solar/wind power. We offer our students integrated experiences in music, art, gardening, and animal husbandry (horses, ducks, chickens...) presented by talented staff. The children, along with an experienced chef, prepare fresh, vegetarian meals daily. PRAIRIE HILL has a 39-year history of environmental education and a commitment to the highest Montessori standards. Teachers are respected and supported by the administration and non-profit board of directors.

We offer medical/retirement benefits, child tuition discounts, financial support to attend Montessori conferences, free healthy lunches, and an opportunity to work at “Nebraska’s First Wind & Solar Powered School” serving ages 18 months–14 years. Start date “as soon as possible.”

PRAIRIE HILL is located seven miles south of Lincoln (population ~280,000), state capital, and home to the University of Nebraska-Lincoln.
